Sir:

The applicant of the above identified application is Zakrytoe aktsionernoe obschestvo Nauchno-proizvodstvenny tsentr "OGONEK" and it is qualified for a small entity status.

Zakrytoe aktsionernoe obschestvo Nauchno-proizvodstvenny tsentr "OGONEK" is a small biotechnology company and the subject matter of the above identified patent application is a major asset of the Company.

It is respectfully submitted that the development of the Company will be significantly impaired if examination of the patent application is delayed. The reason is that the Company needs investment for the development of the technology. However, one of the main aspects which are considered by potential investors whether to provide an investment to the Company or not is a patent protection of the technology. It therefore is extremely important that the Company obtains a patent on the technology which is the subject matter of the present application as soon as possible

It is therefore respectfully requested to grant the above identified biotechnology application "Special Status"; in order to expedite the examination.

Respectfully submitted,

Vitaly V. CHUGUNOV

Sir:

I am aware of the fact that Ms. Xenia Alexandrovna SEMENOVA filed a patent application in the U.S. Patent and Trademark Office. Ms. Xenia Alexandrovna SEMENOVA is 85 years old with diseases inherent to this age. She has devoted all her life to construction of the device described in the application. She would like to assist in prosecution of the application but if the prosecution of the application takes its normal course she might be unable to assist in the prosecution of the application and the question when she might obtain the U.S. patent as a result of her work is problematical.

Respectfully submitted,

CHUGUNOV
Director
